Mrs. D. Williams' DORNOIR MONMOUTH Great Dane 2yrs. 2mths. This boy has everything going for him apart for his skittish shyness this overcome and he will be a truly great dog. Bodily he has a level top line with amply angulated front and rear carrying a deep chest with good rib cage and good bone all round. Lawrence's PENWARTHA APACHE ARROW PdH 5yrs.10mths. One of the best
Shepherds I've had the opportunity to judge in a very long time. He is correct to the
Breed Standard as I read it - none of this curved back. An excellently balanced head
on a lovely reach of neck, good ear set moving as they should. His neck fits into
excellent shoulders with correct front angulation. Good top line and rear angulation
into correct tail. Good spring of rib and deep chest. When he moved his excellent
construction made it effortless; legs being perfectly in line front to back and all this
with a fabulous temperament. B.O.B. - BEST IN GROUP AND BEST IN SHOW.

Lovely head with good ear set carried on a graceful neck. Her angulation is correct both front and rear, her body having that extra length to height which this breed should have and she had the correct long rib cage to go with it giving the required short loin.
